

# **Sailors for the Sea Portugal establishes strategic partnership with the City Council of Lisbon**

Following the Sailors for the Sea Portugal vision, tracking to be the reference in Portugal for the sustainability of oceans and seas, it was with great satisfaction that he was certain the partnership with the City of Lisbon.

Based on the structural axes of the Sailors for the Sea Portugal, Ocean and Seas, Education and Sport this partnership provides an involvement between the two institutions in key activities of the SFA Portugal.

To awareness and environmental education to more young people by KERP program (Kids Environmental Lesson Plans) and bringing the action of the city's Marine Club with the Clean Regattas program where the SFS Portugal will seek to build sustainable paths proposing to make the numerous regattas developed in extensive river front, involving Lisbon.

The City of Lisbon, strategic for its connection to the Sea, obvious center of national decisions as capital of Portugal, the European country with the largest exclusive economic zone of Europe, will be the partner base for a natural expansion of the mission of SFS Portugal to the whole country .

**Like drops in the ocean,  
sailors and boaters are individuals.  
But together we're creating  
a powerful wave of change that is  
sweeping the globe.**
